OUR ETHICS & TRADING POLICIES

MBS ENTERPRISES is a unique trading company in the sense that our business practices are guided by our Christian value-based moral and ethical principles, which we seriously uphold with integrity and honesty. Therefore those who work with us must embrace our business principles. While we recognize the role of agents and brokers in connecting up sellers with buyers, it has also become burdensome to accommodate the demands of agents and brokers in the trading process. Therefore, as a policy:

1. We only engage agents, brokers, associates, or representatives who are willing to apply themselves in accordance with MBSEC ethical trading policies, practices, and procedures.
2. Agents or associates who work with us must deal honestly with us and our prospective buyers.
3. Agents or associates must be willing to embrace our ethical business principles and fair commissioning policies.
4. We do not engage brokers, agents, associates, or representatives who interfere with communication between prospective buyers and our company.
5. We do not entertain price mark-ups or over-pricing for brokers, associates, agents or representatives.
6. We do not entertain dishonest representation or falsification of facts and documents to lure buyers to engage with us
7. We do not welcome double-dealing brokers, agents, associates or representatives who dubiously represent both seller and buyer in order to maximize their profit by squeezing both sides.
8. We do not sell to buyers who intend to over-price the commodity for high-end profiteering.
9. We do not import for buyers who intend to launder their finances through commodity imports.
10. We do not condone any form of brokerage that puts the prospective buyer at a disadvantage.
